very best investment opportunities is effortless and enjoyable long after you master my simple, *Strategic Profits System*.

To prove my point, let me tell you exactly how I recently helped ordinary people each make \$4,600 net profit in just 4 weeks.

Back in January Cocoa was selling for \$781. But my *Strategic Profits* indicators were flashing like giant strobe lights telling me that price was about to go up.

Within 6 weeks, Cocoa shot up to \$1197 And because of the tremendous built-in leverage, each \$900 Cocoa contract yielded a net PROFIT of \$4,150! Imagine plunking down just \$1,900 and walking away with almost \$8,300 in just 45 days!! (chart on page 4)

And this is NOT some rare, isolated example. This is just one of many life-changing profit-making opportunities that are discovered almost every week by people using my *Strategic Profits* principles.

FUTURES TRADING OF FOODS IS EASIER & MORE PROFITABLE THAN STOCK

There are 10,000 or more stocks listed on stock exchanges in the United States. It is difficult to figure out a winner from these. Then when the market goes down, your stock also takes a dive.

There is so much unpredictably in the stock market that one negative comment about the company will take the stock down as much as 40% in just one day. Well established companies, such as Microsoft, have recently seen their stock cut by 50%.

The Foods & Cattle are different. To begin with, because there are 7-8 major foods & cattle traded, you will not be confused as to what to pick.

It is easy to pick one from this list. you can buy and sell on the world market. You can repeat your buying and selling almost endlessly.

Foods & cattle include: Sugar, Cocoa, Cattle, Hogs, Orange Juice and Pork Bellies.

And here's a big surprise: with *Strategic Profits*, you don't need to know one thing about the specific food or cattle.

And the key benefit is the fact that **your profits are multiplied ... while your investment is minimized** ... through leveraging. Leveraging means that instead of paying full price for a contract of, say, corn, you pay only about 2-3% of the total cost.

For example, Cattle is generally sold in 40,000 pounds contracts. If Cattle is running at 71 cents per pound, then 40,000 pound contract is worth \$28,500. But with leveraging, you only have to pay around 2% -- \$675 -- to control that \$28,500 contract of Cattle . And the best part is ...

EVEN THOUGH YOU PAY ONLY 2% DOWN, YOU GET TO KEEP 100% OF THE PROFITS YOU EARN!

When is the last time you bought a car for only \$500 and sold it for \$5,500 to make a \$5,000 profit? This kind of thing NEVER happens ... except in Foods & Cattle trading where investments of \$500 or less regularly make profits of \$5,000 and more!

In fact, super bargains like this not only happen -- they are very common and easy to find in the futures market... when you have my *Strategic Profits* system to guide you.

The beauty of this kind of trading is that **you have NONE of these problems**. All you usually need is a few hundred dollars per contract, and about 15 minutes per day with my *Strategic Profits System* to manage them. It s almost impossible to find these kind of easy, high-profit leveraged deals anywhere else in the world! For example, look at this high-leveraged profit bonanza my *Strategic Profits System* discovered earlier this year:

Back in April Live Cattle were trading at .72 cent per lb.. With a standard contract being 40,000 lb..., one contract was worth \$28,800. But thanks to leverage, we could control that

\$8,232 worth of Live Cattle for just--are you ready?--\$675.

With all the *Strategic Profits System* indicators pointing up, up, up, savvy investors snatched up all the contracts they could handle. By May, Cattle was up to .76 cents a pound, and every one of those \$675 contracts increased in value by \$2,400! **That's 370% PROFIT** in just 3 weeks!

**BUILT-IN LOSS PROTECTION
MAKES STRATEGIC PROFITS
LOW RISK FOR YOU!**

As you can see, my *Strategic Profits System* helps you use leverage to your huge, profit-making advantage in futures trading. And leverage is just one of several weapons you get in your *Strategic Profits* arsenal.

Of course, *Strategic Profits* makes picking high-profit, winning foods & cattle as easy as picking leaves off a tree. But no investment is 100% without risk. So to make sure you make as much profit as possible -- while practically eliminating risk -- my *Strategic Profits* strategy teaches you how to use a

unique tool in currency trading called *options*.

Options are just like dirt-cheap insurance policies for each of your currency investments. I'll teach you exactly how to take a small portion of your funds and purchase options that guarantee you can't possibly lose one penny more than the limit you, yourself set.

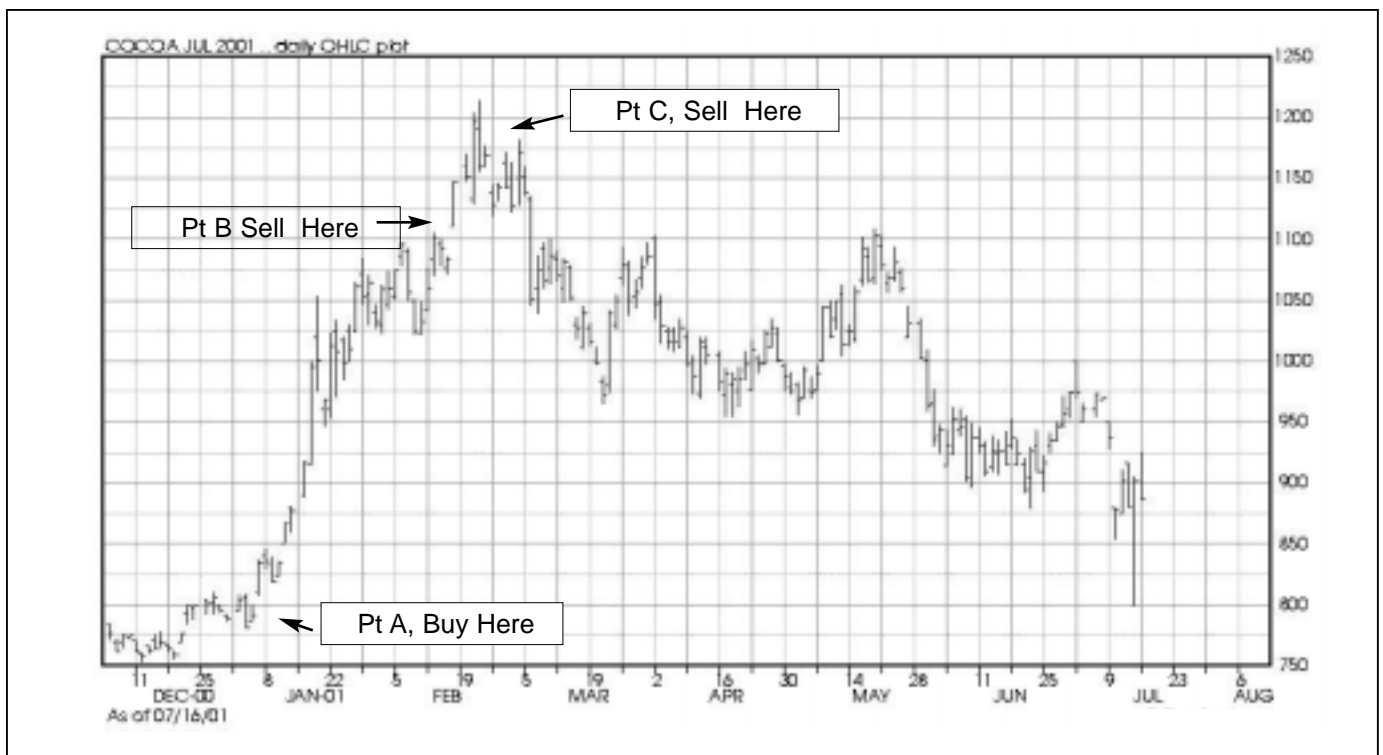

With options, if the Foods & Cattle market turns against you, you're protected from loss, yet will still have unlimited profit potential. Think of it -- the sky's the limit on profits.

You don't need to know anything about this now. I will be sending you monthly updates which will show you which future to pick.

BE RICHER ... LIVE WELL ... SLEEP WELL!

I hope by now you see that **STRATEGIC PROFITS is NOT gambling**. If you're looking for the thrill of having your money teetering on the brink of disaster at every turn, then *Strategic Profits* is NOT for you.

On the other hand, if you want to live well off of incredibly high profits, and sleep well knowing your investments are as risk-free as possible, you need to

give *Strategic Profits System* a try.

MY *Strategic Profits System* spells out, step-by-step, everything you need to know to become a successful, wealthy foods & cattle trader.

THE COMMON SENSE WAY TO UNCOMMON PROFITS

If my *Strategic Profits System* and the Foods & Cattle market is starting to sound like good old-fashioned common sense ... that's because it is! Nothing is more American -- nothing is more basic and true - than finding bargains, buying low and selling high! That's the magic of *Strategic Profits*. And my *Strategic Profits System* is so much faster and easier than the stock market. With stocks, you have over 10,000 companies to try to sift through and understand. In Foods & Cattle, you build a healthy nest-egg following only 5 to 10 markets.

And you don't have to know a thing about the Foods And Cattle themselves, only the price history. This makes it much easier to find and predict home runs. And the beauty is, there's no agonizing analysis or stressful thinking involved at all. Just follow my clear, simple, step-by-step instructions. It's all spelled out for you.

NOTHING COMPARES TO THE FAST, EASY PROFITS OF STRATEGIC PROFITS

My *Strategic Profits System* is so simple and thorough, it's almost impossible not to make huge profits. As you can see, it is actually more conservative than the way most investors trade stocks and mutual funds.

We have no part of wild speculation, or brokers picks of the week. We don't worry about overvalued markets and questionable P/E ratios. The Dow up or down -- it doesn't matter one bit.

And because of tremendous leverage, we always take the best investment route possible: making small investments in areas likely to have big growth. Compare that with stocks which require 100% of your money up front and you have to count on large swings over long periods of time to make any money.

YOU WOULD HAVE TURNED \$600 into \$25,000!

In February, I heard on the TV news that there was a freeze in Florida. The orange groves were frozen, which will kill many of them. It didn't take a genius to figure out orange prices would rise. It's simply supply and demand.

For every 10 cents orange juice prices went up per pound, you would have made \$4.20 profit per contract.. That means you would have turned \$6,000 into \$252, 200.44.

Even if you invested just \$600, you would have made over \$25,000.00 in just three weeks.

BUT DON'T ACTUALLY INVEST MONEY.

When you receive your package you won't actually invest any money. Instead pretend you are. I'll show you how to read the commodities section of your daily newspaper, how to pick winners, everything.

Then keep track of the newspaper listings. You'll be amazed, I promise.

Without investing \$1, you'll see exactly how much you would have made had you really invested.

Foolproof? YES!

As one of my students put it, I couldn't believe how much I would have made in one month - - over \$10,000 --- had I really invested. Here is proof positive that your course really does work!

Compare this to buying a house. If you buy a \$90,000.00 house and use a 10% downpayment, you put down \$9,000 cash. Now if that house rises in value 10% to \$99,000 - you just made a profit of \$9,000 on your \$9,000 downpayment! That's the incredible money-making power of leverage!

But my way to riches is 100 times better than real estate! You see, with commodities, the price can rise much more than 9% in just one day - then day after day! There's no waiting many years. No hassles in selling. No credit forms to fill out. No escrow, title costs or loan points to pay.

I'VE TRIED REAL ESTATE. IT'S A JOKE

COMPARED TO MY WAY.

You can tie up thousands of dollars, keep the property maintained and rented, pay the taxes, go through the struggles, wait months and years, and hope to make money in real estate.

Or, you can take a few hundred dollars, invest about 20 minutes a day to manage it, wait only days or weeks, and earn a doctor's income in the commodity markets.

...YOU can be enjoying your sky-high profits from quick commodity trading.

Or -- take a retail store.

If you opened a store of any kind, you'd be running a gigantic risk in today's world. The mortality rate among retail outlets is a huge 75%, I've heard. They're OUT of business almost as soon as they are in.

Walk through the mall nearest you. If it's anything like ones where I shop, you'll find one For Rent sign after another.

As retailers are forced out of business, they can lose their shirts. Equipment. Stock. Display cases. All this is dead in the water. Huge losses!

Then take you.

Easy? There's nothing easier.

This is why so many folks are eager to know how to do it -- and this is why I want to rush you my unprecedented course to you free of risk of any kind.

YOU WOULD HAVE MADE \$385,000 IN 6 MONTHS WITH THIS RECENT TRADING OPPORTUNITY!

Imagine taking an investment of only \$400 and turning it into \$160,000 in 3 months. Or even better, turning \$400 into \$385,000 in 6 months! Opportunities like this just happened, and you could soon be one of the privileged few to grab the next one!

THE *Strategic Profits Course* is the easiest, lowest risk, sure-fire way to build a fortune today. There's no other opportunity where you can take a

small investment and turn it into one million dollars or more, quickly. It's easy ... and it's best if you have no previous experience.

The recent run up in Corn was spectacular \$600 invested in a single contract in January 1996 yielded a \$5,777 profit by July!

For every \$1,500 you invested in Wheat futures in January 1996 and held until April, you'd have made \$14,595 in profits for you!

You will be following A PROVEN WINNER. So many people have made fortunes this way that I've lost count! People just like YOU have become very wealthy using this very same method. Don't you want to join them?

LOOK AT YOUR ADVANTAGES!

You will be having FUN making money. You will have a part-time hobby that can make you rich with NONE of the problems that most businesses have. Your benefits will soon be ...

**WHY OTHER MONEY-MAKING COURSES
DON'T WORK ... AND WHY MINE DOES!**

It's true most people do fail in commodities, as they do in every business. They learn the wrong methods or take the advice of some broker whose real interest is only making commissions from you.

My course is based on the very same techniques used by the best market professionals, many of whom make millions of dollars each and every year. Until

now these proven inside secrets have been carefully guarded, but I'm going to share all these secrets with you today. I call this incredible breakthrough The Strategic Profits Course.

THE SURE THING TRADES

Chances are you may have heard that futures trading is risky. Actually, most investors know next to nothing about trading. That's why most investors gamble and lose. If you like to gamble, then this program is not for you. As you will soon learn, the Strategic Profits Course is the most advanced, sure-thing winning system ever created. The techniques are based on hidden secrets that professional traders have been using for decades to make fortunes in the market. If you follow my system, you will have the opportunity to make millions of dollars from a very small investment. The profit potential of this incredible system is absolutely staggering!

That's right! Even if you know absolutely nothing about trading, this stunning breakthrough allows you to cash in on the most powerful money making opportunity in existence!

EASY TO USE AND TOTALLY AUTOMATIC!

Have you ever wondered how people become wealthy? Contrary to popular belief, you do NOT need a lot of money to make a fortune. The fact is, you only need \$400 to trade the Strategic Profits Course, and you can begin trading right from your own home. It is very simple to follow and only requires a couple hours a week to successfully do.

These techniques teach you exactly what to do in order to place a trade. What's more, my system calls all the shots for you. There is no guess work. Once you have quickly mastered the basics, everything will be simple. All the rules are explained in easy to understand language, so even if you know nothing about commodities, you'll quickly become an expert.

PROVEN INSIDER SECRETS!

Let's get right down to business. How would you like to make \$56,000 in a single month? Sound unbe-

lievable? Everyday, professional traders are making millions of dollars finding hidden bargains in the market. All you have to do is learn these secrets.

My Strategic Profits Course has been historically proven year in and year out. This powerful system can make you hundreds of thousands of dollars very quickly. In fact, you could make up to \$10,000 in just 30 days from the time you initiate your first trade!

You see, there is a well kept secret in the trading markets that only a handful of professional insiders know about. This secret knowledge is the foundation of my system and not only can it make you rich, but you can start with as little as \$400 and build it into a fortune within just a few months. Until now, I've kept these secrets all to myself. But once you've learned my system, you too will have a tremendous advantage even over the most seasoned professionals. But that's just the beginning ...

YOUR UNLIMITED WEALTH!

So how do professionals make fortunes over and over again? Simple most professionals trade a very similar system. Those trades only occur at critical times. You see, there are certain times the market is extremely predictable. If a few key indicators line up at the critical time, it is actually possible to predict where the market is going. But the best part of this highly accurate system is your ability to really pile up profits. Think about it. If you know with near certainty that the market is going to skyrocket, you can achieve unlimited wealth with virtually no effort!

But don't take my word for it. Just look at these bottom line results. At one point, my system was pinpointing trades worth over \$38,000 per week, and you could make this kind of money because you'll be trading with the exact same system that showed these phenomenal profits!

Think about what you will do with a very large income. How would your family and friends react if you suddenly brought home over \$50,000 in a single month? I know this is hard for you to believe, but you're only one step away from changing your life. You see, making money is easy you just have to know how, and there will never be a better time for you to start than now.

Remember, you can trade for a full 90 days on paper without risking a penny of real money. Then... and only then... you can let the profits you would have made determine if you should keep the course, or return it for a refund. You see the huge profits for yourself, or you don't pay a dime!

THE EASIEST WAY TO WEALTH

Let's face it. It's tough to make a lot of money in a regular business. But NOT with this! One of my students, after he just made \$34,781.00, phoned to tell me "This is the lazy man's way to wealth." I know you will agree!

Now you can stay home and get rich WITHOUT back-breaking work, high stress, going to school or other tough sacrifices! It's like being given your own printing press ... and you can legally print money!

When you catch a winner, you can quickly turn each \$400 you invest into \$5,000, \$10,000 even \$20,000! Basically, you will soon be able to write your own paycheck.

Remember, all this is PROVEN TO WORK by hundreds of people just like you. Now you can have your own money-machine, and make your financial dreams come true!

IMPORTANT NOTE IF YOU INVEST IN STOCKS, MUTUAL FUNDS OR BONDS: This course will also show you how as little as \$400 can protect even a \$50,000 portfolio from losing money from a downturn in the market. In fact, I recently received a call from a student of mine thanking me for this lesson. His mutual funds recently lost \$6,200 in value, but he offset this by making a \$15,800 profit because he used commodities to hedge his risk that mutual funds might go down. Smart, smart, smart!

YOU WILL GET MY HELP AND ADVICE **FREE!**

I will be happy to help you in any way you need - anytime you need it. You can just write or FAX me with your questions. Either I, or my staff that I hand-picked to help me with this, will give you clear and

STRATEGIC PROFIT SYSTEM ... Your Easy Ticket To Extraordinarily Large And Fast Profits and Wealth!

Real trading pros know ... and my *Strategic Profit System* system proves ... that fortunes are made every day in the currency market. Good economy or bad economy -- whether prices are going up or down -- it doesn't matter!

Remember, this is NOT "get-rich-quick". With currency trading, like any real profession, you have to learn the secrets to be successful. My *Strategic Profit System* system teaches you my proven wealth-building methods in a simple, easy to follow, step-by-step program that ensures your success.

With the step-by-step skills you'll learn in my course, and the personal guidance you'll get in my monthly newsletter and from my staff you will master the course in no time.

And it **hardly takes any money at all** to get started. In fact, for less than an average house payment, you can begin making huge profits ... even if the bottom drops out of prices. Consider this real example from earlier this year:

Sugar is an important commodity in the world market. Back in October, it was trading at 9.5 cents per pound. But our *Strategic Profit System* indicators gave us a strong reason to believe that this price was on its way down.

Those who followed my *Strategic Profit* strategy knew the thing to do was go short on Sugar. Going short is a way to make money on falling commodity prices. (You get simple, step-by-step instructions on how to do this in the *Strategic Profit System* manual.)

Sure enough, in November, Sugar was down to 7.5 cents per lb.. While stock investors would be devastated by a big drop like this, my *Power Investors* made a cool **374% PROFIT!** For every \$840 in Sugar contract they shorted, they got **\$2,200 CASH ... in**

just 1 month ... on FALLING prices!

You could have repeated the same shorting action 2 more times to reap big profits.

THE PERFECT WEALTH-BUILDING BUSINESS

All this is why many *Power Investors* have found this is the perfect way to turn your small investments into full-time income ... in addition to your 9 to 5 job. Indeed, you may find that this is so pleasant ... such easy, exciting work that takes only 10 minutes per day ... that after you become successful, you may want to quit your job.

Remember, my system is perfect for learning and proving on paper BEFORE you invest any of your own real money. You won't believe how exciting it is to see your paper transactions earn you 300%, 400%, 500% PROFITS and more. You may even feel a little depressed when you realize this could have been real money pouring into your bank account instead of just paper profits.

Then when you make your first real-money investment you'll be tickled with surprise and excitement as your first hundreds or thousands of REAL PROFIT dollars pour into your account. I guarantee noth-

ing feels quite so good ... and there is no easier, safer way to make your investment dollars grow.

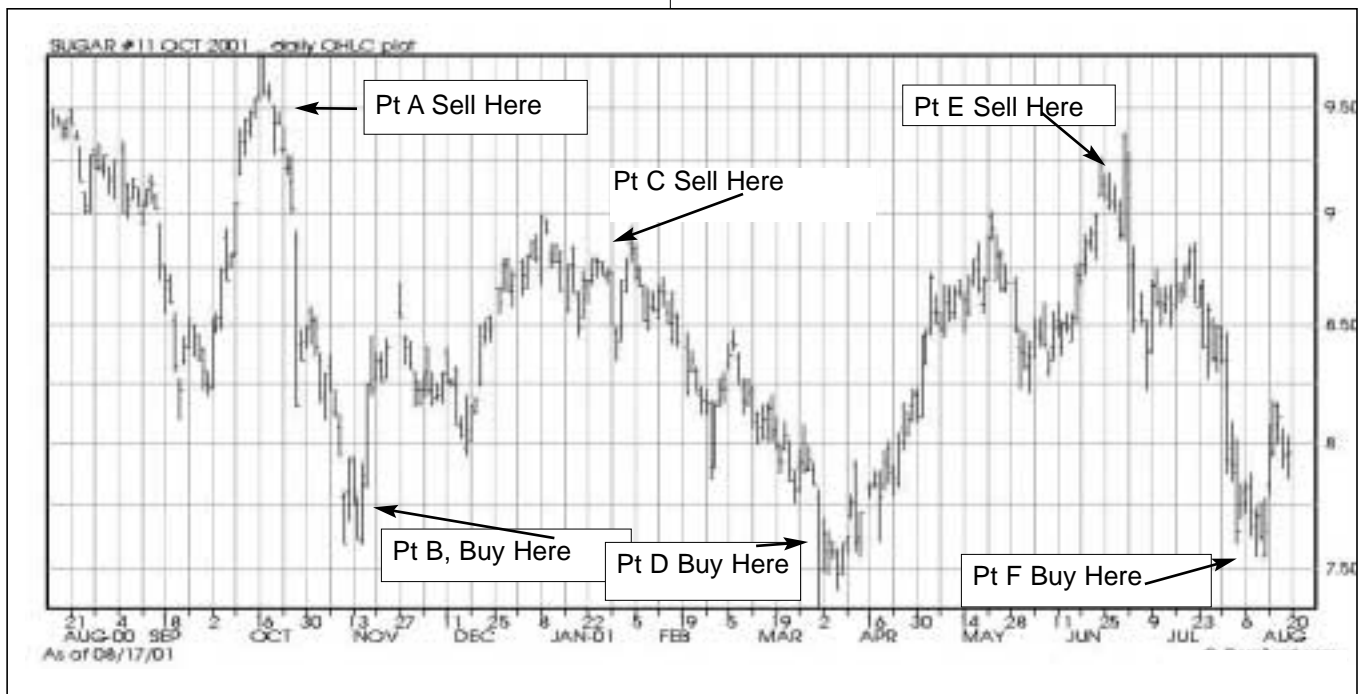

YOU WORK HARD. YOU HAVE DREAMS AND A FAMILY. YOU DESERVE TO HAVE A RICHER LIFESTYLE AND FINANCIAL SECURITY.

No matter what your walk of life, you are undoubtedly trying to put some amount of money away for the future. Whether it's for your retirement, your children's college, or to fulfill your life-long dreams.

So why not put that money where it will do you the most good?

With Strategic Profit System, you can take the exact same money that is growing at 10% to 15% in some mutual fund and INVEST it where profits of 150% ... 300% ... 500% and more are common in just weeks?

Remember, *Strategic Profit System* is NOT just for rich folks -- although just about everyone who applies these principles becomes rich. Once your brokerage account is open, many contracts only cost a few hundred dollars. Those small investments, with the power of leverage, can make all your financial dreams come true.

FINANCIAL FREEDOM IS NOW WITHIN YOUR GRASP. WHAT DIFFERENCE WILL IT MAKE IN YOUR LIFE?

Have you ever imagined how your life would change if your investments started paying off in triple digits? Have you ever wondered what you would do if you suddenly became financially independent?

- Maybe you would own a **million-dollar home** overlooking the ocean.
- Maybe you would drive a **Mercedes** or have a **chauffeur** drive you.
- Maybe you would **quit** your dead-end job.
- Or maybe you would stay with your job **because you WANT to**, not because you **HAVE to**.
- Maybe you would just enjoy an incredible **retirement** -- 10 to 15 years early.
- Maybe you would **vacation** at the most exotic resorts in the world.

When you become wealthy with *Strategic Profit System*, these are no longer idle daydreams to pass the time. These are real lifestyle choices you get to make.

WHEN I SAY RISK-FREE, I MEAN COMPLETELY, 100% WITHOUT ANY RISK TO YOU!

I don't blame you for feeling a little torn right now. On one hand, I know you want to jump in with both feet and finally earn the kind of large profits that will transform your life.

On the other hand, you're a bit skeptical. With so many crooks in the world we need to be careful and protect ourselves. I don't blame you one bit. And if you weren't feeling this way in today's world, I'd be a bit concerned for you. You should know that almost every student of mine has confessed that they were skeptical at first. But they didn't let negative thinking prevent them from taking a no-risk look.

Remember, I'm not asking you to BUY anything. I'm just asking you to take a no-risk test drive of

my system.

That's why I insist on showing you how to prove this system to yourself on paper without risking any of your money. That's why I want you to see first-hand that you can have your own very successful high-profit investing business spending only 15 minutes a day. That's why I guarantee MORE than just your satisfaction.

SAVE \$100 WHEN YOU RESPOND WITHIN THE NEXT 7 DAYS!

You would have to pay \$3,000.00 for my course if it were a seminar. And even that high price would be a bargain. But I ve decided to put my course on tapes and manual so you can easily afford it.

Instead of \$3,000.00, your investment will be only \$249. But it gets better. Because I want only serious students who can make a decision, I am going to knock an extra \$100 off this low price when you respond within the next 7 days.

You can make \$85, 000.00 in your first year, or even more, yet you will pay only \$149 complete for my course when you act now. This will truly be the bargain of your lifetime!

I am very strict on my deadline. If your order is postmarked AFTER 7 days from today, I will send you a letter requiring you send another \$100. Or you can have me return your payment if you don t want to pay the extra \$100.

WHY AM I SELLING THIS?

There is absolutely no competition in commodity trading. The markets are so heavily traded that it doesn t matter how many people are using my system. It won t effect our profits one bit.

I m looking for a small, but enthusiastic group of people that I can teach this simple method to. You will have free unlimited expert consultation. You may not believe this yet, but I m going to change your life!

Call me altruistic, if you wish. But I personally get a deep down sense of satisfaction in watching my students become commodity pros.

And bear in mind there s room enough for all of us. Your making one fortune after another won t keep me from making a mint of money this fast way -- or keep any of our other students from doing the same.

I m sure you are skeptical, but I m looking for skeptics. If you are not willing to try something completely new, if you re unwilling to change your life, then please look elsewhere. This should limit the amount of interested people. Once again, I m looking for a small group of people that I can turn into millionaires.

IT S A GOOD SIGN IF YOU ARE A LITTLE SKEPTICAL NOW

Almost every futures millionaire and student of mine at first said John, I m skeptical it can be so easy and that I can make as much money as you say. But they didn t let doomsday thinking prevent them from taking a no-risk look.

I am not asking you to BUY anything. I m just asking you to take a no-risk test drive of my system ... and then you can decide about it. After all, words are cheap, and the proof is in the pudding.
